GitHub SSH Key Setup Conversation

User: git@github.com: Permission denied (publickey).

fatal: Could not read from remote repository.

Please make sure you have the correct access rights

and the repository exists.

Assistant: The error you're encountering usually happens when Git is unable to authenticate using

the SSH key associated with your GitHub account. Here are some steps to resolve the issue...

(Conversation continues...)

User: Your identification has been saved in C:\Users\Yuki\.ssh/id_rsa.

Your public key has been saved in C:\Users\Yuki\.ssh/id_rsa.pub.

Assistant: Great! You've successfully generated an SSH key. Now, you can follow these final steps

to complete the setup...
